

# PBS Updates and Reminders

**September 18, 2015**

Happy Friday, Hurricanes!

PBS team has gathered important information about grade-level discipline referrals to help us hone our efforts in addressing immediate areas of concern in student behavior. Although our overall referral count has increased from 7 to 23 during August 17 through September 16, this count is lower than it was last year. This is great news! The area of growth we should focus on for next week is classroom disruption. Remember, you can reach out to a students' guidance counselor, PBS team, and/or AIP team for additional support to provide interventions in class. Below is a breakdown of our referral count per grade level, gender, and area of focus with comparisons.

Targeted area of focus	2014-15	2015-16
6 <sup>th</sup> grade (current 7 <sup>th</sup> graders) with referrals	29	4
7 <sup>th</sup> grade (current 8 <sup>th</sup> graders) with referrals	23	12
# of students contributing to the referrals	55	17
# of female students with referrals	24	1
# of referrals that occurred in the classroom	45	13
# of aggression referrals	17	1
# of skipping class referrals	12	3
# of disrespect referrals	12	3
# of disruption of class referrals	5	4

**Reminders:** When giving *Positive Referrals*, please drop off the form in the Discipline office and do not send the student down. We want students to stay in class so they are not missing instructional time. Also, don't forget to check the *PBS* stations and leave a comment or suggestion. We will be meeting next week, and would love to hear your input. Remember, we are *ALL* in this *together!*

Event	Date
Storm Buck Drawing	Next Drawing: October 7th
Positive Behavior Challenge	October 20th—October 23rd Time/Date TBD
Positive Referral Celebration	October 23rd during lunches
• Next PBS meeting	September 23rd Where? China

**That is all for now—Don't forget to STORM!**
